

Request For Proposals: Geotechnical Sinkhole Investigation

Date: 1/9/15

Addendum: 1

To All Potential Bidders:

This addendum is issued to modify the previously issued bid documents and/or given for informational purposes, and is hereby made a part of the bid documents. Please attach this addendum to the documents in your possession.

Pre-Proposal Conference Attendees:

Name	Company	Phone Number	Email Address
Tony Roth	Geotechnology	913-438-1908	t_roth@geotechnology.com
Scott Brown	PSI	913-310-1600	scott.brown@psiusa.com
James Landrum	Olsson Assoc.	913-748-2637	jlandrum@olssonassociates.com
Dylan Kruger	KTI	913-498-1114	dzkruger@ktionline.com

Questions and Answers from the Pre-Proposal Conference:

Q1: How far are the voids under the cul-de-sac?

A1: We believe they run about halfway up the cul-de-sac.

Q2: When was the last time you filled the sinkhole?

A2: The last repair/fill was 2-3 months ago.

Q3: Has there been any issues with the house on the property?

A3: There have not been any issues with the house related to the sinkhole that we know of.

Q4: Does the storm water pipe flow into the gulley behind the house?

A4: Yes, we think it does. We are unsure of the outflow location.

Q5: Who did the water line repair?

A5: The Deister Company .

Q6: Do you have pre-existing plans?

A6: We are checking into this. If we are able to locate them we will contact those who are interested.

Q7: How deep is the water line?

A7: Approximately 20 Feet.

Q8: Does it settle after every hard rain?

A8: Yes, although since it was filled last 2-3 months ago it has not changed. There have been few (if any) significant rain events since then.

Q9: What do you want us to provide in the proposal?

A9: Your best plan and/or a menu of options with price ranges.

Q10: Do you have pre-existing plans?

A10: The plans are hit or miss, we are not sure how arcuate they are compared to what is currently in the ground. We will be happy to release what we have.
