

MEETING NOTES

Project No | 15126
Date | February 10 , 2016

Vireo made a presentation to CLARB as a kick-off to the Parkville Parks Master Plan project. Current health and demographic trends were discussed and presented via PowerPoint slides. The primary focus of this meeting was twofold. First, to identify key leaders and community groups whose voice should be included as part of this endeavor to update Parkville's Park Master Plan. Second, to gain input on what CLARB feels are key issues concerning their parks.

The meeting consisted of city staff, CLARB officers, and representatives from Platte County Parks. Below is the list of key leaders and community groups that were identified as contacts for participation in updating the Parks Master Plan. Also listed below are the key issues with parks that were identified during the meeting.

The next step will be an interview process to gather thoughts and ideas from the identified participants about their views on the future of Parkville Parks. Below is the list of participants that were identified at the meeting.

KEY LEADERS

Cory Miller
Kathy Dusendury
Diane Driver
Ken Parrish
Jeremy Jordan
Joe Fox
Jamie Parrot
Gary Lind
