

# **PARKVILLE NATURE SANCTUARY**

***and Volunteer Work Day***

***CELEBRATE EARTH DAY***

**Saturday, April 21, 2018 from 10:00 AM to 3:00 PM**

A BioBlitz is a science-based event that records as many living organisms as possible in a given time period. The program will include plant and wildlife experts who will assist with the many identifications.

Opportunities for Sanctuary visitors to join in with an expert-led small group are available. Recommended ages are teens to adults.

**CALL 816.268.5030 TO REGISTER & FOR MORE INFORMATION**

Too young for the BioBlitz but still want to support the Sanctuary on this Earth Day weekend?

Come out and join PNS volunteers to take part in our annual 'Garlic Mustard Pull Extravaganza' to remove this woodland invasive.

Individuals, groups, and families with young children can pull and bag this exotic plant, no experience necessary. It's easy, it's fun!
