Proposition P

Parks Sales Tax Voter Information Guide

Parkville Parks

The City of Parkville maintains a network of community parks and recreation areas that provide a broad range of recreation opportunities for its residents. In 2016, the City adopted a Parks Master Plan that outlined long-term enhancements to the city's parks system. The Plan was based on a vision that states the City and its residents will enjoy an accessible, safe and connected community park system, providing regionally significant destinations and preserving and enhancing Parkville's unique natural resource base while maintaining and creating a variety of unique recreational activities.

On April 2, 2019, Parkville voters will be asked to vote on Proposition P. Proposition P provides funding for local parks and recreation improvements. If approved, a one-half cent sales tax will be collected on retail purchases in the community for a period of ten years. The funds will be dedicated to improving local parks and recreation facilities in the community.

Park Improvement Priorities

The Parkville Community Land and Recreation Board has reviewed the 2016 Parks Master Plan. From their work, should **Proposition P** pass and provide for a dedicated funding source for park improvements, the priorities for improvements will include:

Trail Connectivity

Increased neighborhood trails for better connectivity to local parks; completion of the Riverfront Trail, the Loop Trail, and continuing the trail from Highway 45 to downtown Parkville.

Neighborhood Parks Upgrades

Upgrade existing neighborhood parks including replacing shelters, playgrounds, and pedestrian access.

Baseball/Softball and Multipurpose Fields

Provide more active recreation facilities in Platte Landing Park including the addition of a baseball/softball complex and multi-

purpose fields for such uses as soccer, football and lacrosse.

Riverfront Parks Improvements

Improvements will be made to English Landing Park, Platte Landing Park, and the transition to the parks from downtown Parkville.

Improvements will expand recreation facilities and help blend active and passive recreation areas for the enjoyment of residents.

How can I find out more information about Proposition P?

The City's web page, <http://parkvillemo.gov> has more information about Proposition P, the city's parks system, and the Parks Master Plan.
