## **1. GENERAL AGENDA**

### **A. Ward Map Presentation**

Community Development Summer Intern Grace Bridges provided a background of the statutes for determining the ward boundaries, noting that revisions were not required if there was not more than a ten percent deviation between the largest and smallest districts by population. She said the map was last updated in 2004 and in 2010 staff determined that it was not necessary to update the ward boundaries.

Bridges said that based on the City's population estimates the ideal population for each ward was 1,388 residents and the current map had a 30.4 percent deviation between the largest and smallest wards.

Discussion focused on the trying to keep 1300 block of Main Street in the same ward as other residents on Main Street, cleaning up the boundaries on Bell Road, projected populations by neighborhood and ward number requirements for fourth class cities.

Community Development Director Stephen Lachky said that staff would collect more information on the population from each neighborhood and present additional information at a future work session.

The work session ended at 6:59 p.m.

The work session minutes for June 20, 2017, having been read and considered by the Board of Aldermen, and having been found to be correct as written, were approved on this the fifth day of July 2017.
